

Appendix- (E)

Names of the persons who gave opinions and their remarks during the period from 1911 to 1964 in appreciation of the work and contributions of S.K.Bhuyan:

S.K.Bhuyan completed the collection of these appreciations and compilation of the book 'A BOOK OF APPRECIATION' on 25-5-1964. The appreciations reflect the impacts of the contributions of S.K.Bhuyan and how his contributions drew attention of his contemporary intellectual luminaries through out the world. The 'appreciations' are helpful for the evaluation and analysis of his writings and contributions. They reflect different aspects of his personality also. That S.K.Bhuyan had great reverence for the views of other and that he took them sincerely can be inferred from the careful preservation of these remarks. Though the 'appreciation' inserted in the book are some comments and remarks on his writings and other contributions, they are rich with artistic literary qualities. A list of these appreciations is prepared here with minor variations from the original list—

Sl. No.	Name	Date	Place and subject of appreciation
